

telepark.wiki

Installation Instructions

What you need:

You need a Web hosting package or a local Webserver with PHP 4.3x or later.

Installing to a web hosting package:

1. Extract the .zip file that you downloaded. Unzip to a new folder on your computer.
2. FTP upload all files to a folder on your Webserver (e.g. *www.you.com/wiki/*) using FTP software
3. Open *www.you.com/wiki/* to start the telepark.wiki automatic setup and to enter your keycode

Installing to a local Webserver (XAMPP from <http://www.apachefriends.org>):

1. Extract the .zip file that you downloaded to the */htdocs* folder on your local XAMPP Webserver
2. Open your local Webservers' URL in your browser to start the setup (e.g. <http://localhost/wiki>)
3. Complete the installation by entering your Wiki keycode

Frequently Asked Questions:

1. Where do I get my Wiki keycode from?

If you don't have one already, email us (info@telepark.de) the following information:

- *The domain address on which you plan to install telepark.wiki e.g.
<http://www.your-domain.com>
<http://192.12.456.65/>
<http://ibmserver/>*
- *The number of Wiki users you licensed: e.g. 10 users*
- *Your email address: e.g. info@your-domain.com*

2. How do I login to my Wiki?

Go to the "Login" link in the header on your Wiki and enter the username: "superadmin" and the password "superadmin". Please change the password in the Settings area (link in header, too).

3. What should I do if I get the error message "mod_rewrite must be enabled!"?

*If this message appears for a web hosting package, contact your provider. If this message appears for a local server, open the file "httpd.conf" in the folder on your local server (e.g. *apache/conf/httpd.conf*) with a conventional editor and look for the line *LoadModule rewrite_module modules/mod_rewrite.so*. Remove the "#" symbol at the beginning of the line and save.*

4. What if something goes wrong?

Make sure that the *PHP_safemode* setting of your Webserver is set to "off" (contact your provider in case). If that does not solve it, contact us by email (info@telepark.de).
